

Climate Change: The Solutions

“Something better is on the way”

Tuesday 13th November, 7pm

(refreshments and stalls from 6.30pm)

York House, Richmond Road, Twickenham TW1 3AA

How can we as a society make the changes needed?

This free public event looks at how we can make a difference, not just as individuals but as members of a wider community

Speakers

International level: Contraction and Convergence – Aubrey Meyer

Director, Global Commons Institute. An independent group concerned with protecting the global climate system
www.gci.org.uk Author of Contraction & Convergence: The Global Solution to Climate Change

National level: Tradable Energy Quotas – Shaun Chamberlin

Development Director, The Lean Economy Connection. A not-for-profit research centre designing strategies for environmental crises
www.teqs.net Editor of Energy and The Common Purpose - Managing the Energy Descent

Local level: Sustainable Energy Policies in Woking – Mary Holdstock

Find out how Woking Council reduced its energy consumption by 20% in 4 years and has, among other initiatives, the first sustainable heating and cooling energy station in the UK

Chair: World Development Movement Director – Benedict Southworth

The World Development Movement (WDM) is an organisation campaigning for justice for the world's poor. It campaigns on aid, debt relief and trade justice, and is now working on climate change because of its effects in the developing world, particularly on food supplies
